FOR IMMEDIATE RELEASE
JUNE 17, 2022

VIROX TECHNOLOGIES PARTNERS WITH ETHOGUARD TO DELIVER SUSTAINABLE AND EFFECTIVE DISINFECTANTS TO THE AGRICULTURAL AND FARMED ANIMAL SECTOR

Virox Technologies, the maker of Prevail disinfectants and the manufacturer of some of the world's safest, most effective, eco-friendly disinfectant chemistries, is pleased to announce a new partnership with EthoGuard Inc. Effective from June 17th, 2022, EthoGuard is appointed as the new master distributor of Prevail disinfectants to the agricultural and farmed animal sector.

As well-respected biosecurity subject matter experts who have an extensive history supporting the Prevail line of products, EthoGuard's Mark Beaven (President) and Chris Vanderkooy (VP Sales) played pivotal roles in supporting the introduction of Prevail to the Farm/Ag sector over the past 7 years.

"Our team is incredibly excited to work with EthoGuard and their team" comments Executive Vice President – Commercial Markets at Virox, Lee Nesbitt. ***"Their extensive biosecurity expertise and experience with our Prevail™ products will be an incredible asset not only to Virox but the customers and users of Prevail."***

For more information on the complete range of Prevail disinfectant products, contact EthoGuard:

About Prevail disinfectants

Prevail's uniquely formulated products are ideal for agricultural facilities to stop the spread of disease and prevent outbreaks while remaining gentle on animals, users, and the environment. Prevail lowers the risk of contagion while being safer on users, animals, and equipment.

About EthoGuard

EthoGuard was launched to be the leading security provider for the agricultural and agri-business sector in North America. Founder Mark Beaven began the process of establishing a comprehensive agricultural security company that would help protect clients from the many security threats that livestock and poultry producers as well as cash crop farmers face on a daily basis. Armed with the 25+ years of extensive experience he had with biosecurity, along with the many contacts he had in cyber and site security, Mark launched EthoGuard to assist the North American ag and agri-food sectors in protecting themselves. He has developed a professional team of experts armed with the most up to date technologies to assist EthoGuard's clients reduce the many risks that they face. Mark's vision was not to simply sell products, he wanted to develop a company that becomes a true partner protecting their client's security by developing and providing solutions. It is through that partnership that EthoGuard is there for its clients 24/7.

About Virox Technologies Inc.

Virox Technologies Inc.™ is a disruptive chemical engineering and disinfectant innovator who set a new standard in disinfection in 1998 with the patented technology, Accelerated Hydrogen Peroxide®. Since then, we have continued to innovate and deliver the world's safest, most effective, and eco-conscious disinfectants and elevate the understanding of proper disinfection and infection prevention. Our trusted technologies and products are relied on in more than 70 countries across human and animal health industries, eliminating dangerous pathogens and providing a safer and greener alternative for people, animals, and the planet.
